Profile:

Enthusiastic and motivated Front-end web developer with expertise in creating web-pages using HTML, CSS, JavaScript and jQuery. Proven track record of creating responsive websites, including an Amazon clone website, Portfolio website etc. Detail oriented with passion for creating user friendly interface and optimizing web performance. Ready to develop websites and utilize skills.

Skills: -

1. HTML
2. CSS
3. JAVASCRIPT
4. JQUERY
5. MYSQL

Education: -

I have completed my graduation in B. A. from S.V.P.G. College of Kumaun University (Nainital) Lohaghat, Uttarakhand (2022).

Projects:-

Amazon Clone Website—

I have designed fully functional clone of the Amazon web-page using HTML and CSS, showcasing proficiency in front-end development. Implemented essential components such as a navigation bar for seamless navigation, a hero image section for user attention, and a product section featuring various types of products similar to Amazon's catalog.

Calculator—

I have created an interactive Calculator webpage using HTML, CSS and JavaScript. Designed and implemented a user friendly interface with all standard calculator functionalities.

My Portfolio----

Designed and developed a dynamic personal portfolio website utilizing HTML, CSS and JS, showcasing skills, projects and contact information. In this webpage I have implemented a navigation bar for seamless navigation and webpage divided into six sections: Home (intro), About, Services, Skills, Projects and contact.

Note - Currently working on creating more projects.
